

INSTRUCTIONS

to play the Adventures of Saint John Paul the Great
Video Game on PC and MAC computers:

(Please note the game is ONLY available to be played on PC and MAC computers)

INSTRUCTIONS FOR PC (For MAC instructions, see Page 4)

1. Click on the 'Download Game for PC' button:

The game will start downloading as a ZIP file.

2. In the bottom left hand of your screen: Go to your downloads folder and pull the file to your desktop (or another folder on your computer such as C drive)

3. Right click on the folder and click "extract all"

The zip file will start extracting and take a few minutes to do this (it is approximately 1.34GB). Double click on the folder when it has finished transferring.

4. Double click on the .exe file

5. Once the game window opens, select your desired screen resolution and click 'Play'.
We recommend 1280x720 (resolutions may vary dependent on your monitor).

To exit the game, press Alt + F4.

INSTRUCTIONS FOR MAC (For PC instructions, see Page 1)

1. Click on the 'Download Game for MAC' button:

The game will start downloading as a ZIP file.

2. Double click on the PJPII-MAC.zip file to extract the files.
3. Locate the folder 'PJPII Mac Ver' and double click to open.
4. Right click on the JPPIIvideogame.app file and click open.

Note: If you double click the file, a security window will say the game can't be opened because it is from an unidentified developer – click 'OK'. To move onto the next step, right click to open.

A security message will say: "JPIIvideogame.app" is from an unidentified developer. Are you sure you want to open it? Click open.

The game will take a few seconds and open in the Dock.

- 5. Once the game window opens, select your desired screen resolution and click 'Play'.**
We recommend 1280x720 (resolutions may vary dependent on your monitor).

To exit the game, press Ctrl + Q.
